*A Message From
the President and
Vice-President*

It's an honor to represent the Central Florida Association for Family Child Care (CFAFCC), which gives us the opportunity to reach out to providers in the three counties: Seminole, Orange and Osceola. Through the CFAFCC, we are able to help other providers to gain more knowledge in child care development and business practices, as well as the rules and regulations of the county and state. We encourage providers to recognize themselves as professionals and that they can become leaders in the community they serve for the benefit of the children. Our goal is to offer providers exceptional training so they can also educate others in the community, including the children, parents, other providers and other organizations. Remember there are certain people that bring out the best in others and you may be one of them. Thank you for your continuous support to our association!
