Evaluation of Direct Enhancement Services

COMPREHENSIVE CONSUMER EDUCATION

Describe how the Coalition coordinated resource and referral programs specifically related to the provision of comprehensive consumer education to parents and the public regarding participation in the school readiness program and parental choice.

Our team of Family Engagement Specialists help families navigate their choices by providing customized referrals to legally operating Orange County child care providers, information on state licensing requirements, and resources for paying for child care, in addition to other community referrals. The team processed 11,938 waitlist applications for families seeking enrollment into the School Readiness (SR) program. 100% of CCR&R calls/requests received follow-up with requested information within two (2) business days of the request, in the format requested by the individual. Additionally, 100% of parents requesting child care referrals will receive a list with a minimum of six (6) written referrals, unless fewer than six (6) providers met their criteria. The impact of COVID-19 left an indelible mark on families, providers, and the community in 2020/21 and 2021/22. Families continued to navigate through life with the pandemic in the rearview mirror in 2022/23, as consultations with families increasing by 8.8% and requests for child care referrals increasing 40% over 2021/22. 4C's computer lab was open and available for families to utilize to apply for SR, VPK, or complete a recertification. A total of 2,858 computer lab appointments were made between 7/1/22 – 6/30/23.

For the convenience of families, we offer the following access points, available on-line 24/7:

- On-line interactive provider map.
- Links to Department of Children and Families (DCF) inspection reports and consumer education materials for selecting quality care.
- On-line request forms for provider transfers or break-in-service.
- Website link for families with information regarding the VPK Readiness Rate and search of individual provider's rates.

The CCR&R team traveled the county to attend a total of 32 community events, an increase of 78% over 2021/22 and far exceeding the requirement to participate in a minimum of ten events. A total of 1,621 contacts were made. Below is a sampling of outreach/awareness events:

MONITORING

Describe the process for monitoring of compliance with, and enforcement of, applicable state and local requirements.

VPK and School Readiness programs are monitored in accordance with Florida law and the VPK and School Readiness agreements. Non-compliance issues are addressed according to the non-compliance policies for VPK and School Readiness programs. Licensing issues are referred to by the Department of Children and Families. Based on the State CCDF Plan, Health and Safety violations identified in statute are applicable to the Coalition's Progression Monitoring Policy and Discipline. The Coalition's Provider Relations Team (Internal Staff) provide training to provider owners and directors, providing compliance guidelines and reviewing provider contracts while the Monitoring and Technical Assistance Team (Itinerant Staff) visit facilities to make sure that state regulations are being followed.

INCLUSION

Describe the activities the coalition has implemented to promote inclusive child care, including responding to Warm-Line requests by providers and parents, and providing developmental and health screenings to school readiness program children.

The Inclusion and Diagnostic Services team has provided children, families, and teachers with resources needed for intervention services to better support their developmental concerns and needs. The ELCOC Inclusion/Diagnostic team has referred numerous children, birth to five years of age, to various community therapy providers. ELCOC Inclusion/Diagnostic team has partnered with several therapeutic agencies, creating memorandums of understanding to promote families' access to therapeutic services in a timelier manner. Additionally, we have been able to provide many early childhood teachers with technical assistance and resources that better support their classroom management strategies and the inclusive teaching of all the children in their care. In response to community agencies overwhelmed systems that limit timely evaluation of children, the ELCOC began using the Battelle Development Inventory and Preschool Language Scale Screeners to better assess children's developmental needs. The intent and outcome were to better ensure and expedite that children referred were receiving services. The addition of this process allows us to work closely with partner agencies who provide IFSP and IEP services.

During the 2022/2023 fiscal year, follow up services for 1,105 child referrals (both school and non-school readiness) were provided to 232 providers and parents by the Inclusion and Diagnostic Services Team. The activities implemented to promote inclusive childcare were follow up visits and/or technical assistance to childcare providers and families concerning 192 behavior, 105 developmental, 164 speech/language. Technical assistance included strategies and resource materials to facilitate the needs of the children being

EVALUATION OF DIRECT ENHANCEMENT SERVICES

referred, as well as the classroom. Opportunities for technical assistance included 316 for inclusion TA and 29 VPK Classrooms targeting social emotional mental health. 27 referrals to community agencies for evaluation and/or follow-up therapies were made by the Inclusion Team with 8 children receiving services. Finally, there were 316 direct teacher TA visits and 864 child observations completed.
